

Energy Messages

“Assure Mobility”

- Energy security is critical to mission success
 - We will safeguard our energy infrastructure and shield ourselves from a volatile energy supply

“Expand Tactical Reach”

- Energy efficiency increases mission effectiveness
 - Efficiency improvements will enhance combat capability
 - We extend our tactical range and minimize operational risks, saving time, money and lives

“Lighten the Load”

- Energy efficiency increases Marine combat capability
 - Efficiency improvements decrease our reliance on logistics
 - Reduction of logistics requirements saves lives by reducing exposure to threats

“Green Our Footprint”

- Environmental stewardship protects mission capabilities
 - Investment in environmentally-friendly technologies afloat and ashore reduces green house gas emissions, lessens dependence on fossil fuels and reduces risk from commercial supply vulnerabilities
 - We are all responsible for energy efficiency and promoting a healthy environment for a sustainable future
