

# 6.3 Blue Force Tracking

## Proposed FY04 new start

### APPROACH:

- Work with JFCOM and JTF WARNET to develop and demonstrate ability to capture, transport, and utilize source-independent blue force tracking data
- Demonstrate version 1 in SV04

PERFORMER: SSC-SD

### OBJECTIVE:

- Provide maximum use and visibility of multi-source blue force tracking data
- Attempt to standardize brevity message formats

### PAYOFF:

- Interoperability and usability of blue force tracking information whatever the source

### SUPPORTS

- OIF reports

Transition: IAS?
