

6.3 Ground Weapons Locating Radar

FY04 new start

APPROACH:

- Examine characteristics of MRRS system under development
 - RF
 - Processor
- Determine feasibility of addition of GWLR functionality

OBJECTIVE:

- Determine viability of developing algorithms to allow Multi-Role Radar System to function in ground weapons locating radar mode

PAYOFF:

- Additional functionality for MRRS
- Counter-fire ability

SUPPORTS

- High need item on Advocates List

PERFORMER: NSWC Dahlgren?

Transition: MD FNC: AGRB; or MRRS
