

Amendment Number 0003

BAA 12-008
"Electronics Warfare Technology"

The purpose of Amendment Number 0003 is to provide the following response to a question received under BAA 12-008 entitled, "Electronics Warfare Technology":

Q#1: BAA 12-008 entitled, "Electronics Warfare Technology" doesn't differentiate whether the desired solicitations would cover active or passive components and/or systems that might apply to the topic. Please confirm differentiation desired.

A#1: ONR is seeking white papers focusing on multispectral semiconductor lasers, continuously tunable multispectral fiber/waveguide lasers, non-mechanical beam steering, and innovative EW concepts, as specified in Section 6, entitled, "Research Opportunity Description" paragraphs A-D of the BAA.
