

Amendment 0001

Broad Agency Announcement (BAA) BAA13-008

“Communications and Networking Discovery and Invention”

The purpose of this Amendment 0001 is to answer technical and administrative questions regarding Broad Agency Announcement BAA13-008.

Q#1 May a company located outside the United States of America participate in ONR BAA 13-008?

A#1 Section III of ONR BAA 13-008 states, “Some topics cover export controlled technologies. Research in these areas is limited to “U.S. persons” as defined in the International Traffic in Arms Regulations (ITAR) – 22 CFR § 1201.1 et seq.” Thus entities that are foreign to the United States of America may not participate as prime contractors.

---

Q#2 Is the frequency response on X/Ku/Ka continuous, or can it be resonant for certain discrete bands?

A#2 The frequency response could be resonant for typical SATCOM bands.
