

Special Notice 11-SN-0022

Description: NOTICE OF INTENT TO AWARD A SOLE SOURCE

The Office of Naval Research (ONR) intends to issue a Cost Plus Fixed Fee Contract to a single source under the authority of FAR 6.302-1(a)(2)(iii), Only One Responsible Source and No Other Supplies or Services will Satisfy Agency Requirements, on or about 11 July 2011 to Wyle Information Systems under its current contract, N00014-11-C-0568. The period of performance will be for seven (7) months.

The prospective contractor shall provide technical, engineering, and programmatic support services to the Office of Naval Research Code 06 Chief Information Officer.

The Government intends to award a competitive contract for this requirement after 9 July 2011; however until an award is made, a sole award is necessary to immediately continue services. Awarding to another source would cause unacceptable delays/gaps in service during the time required to issue a new competitive contract.

The North American Industry Classification System (NAICS) code for this requirement is 541519 with the size standard of \$25 million. This notice of intent is not a request for proposals or quotes; however, all responsible sources may submit a quotation and technical capabilities, which, if received within fifteen calendar days of publication of this notice, shall be considered by ONR. All responses must be submitted to the Government point of contact at the email address shown below. A determination by the Government not to open the requirement to competition based upon the responses to this notice is solely within the discretion of the Government.
