

# Naval STEM Opportunities for Students

## Naval Science Awards Program (NSAP)

NSAP is a U.S. Navy and Marine Corps program that encourages students to develop and retain an interest in STEM. NSAP recognizes the accomplishments of eligible students at regional and state science and engineering fairs and the Intel International Science and Engineering Fair (ISEF) in producing quality science and engineering projects.

## Science and Engineering Apprenticeship Program (SEAP)

SEAP is an 8-week high school apprenticeship opportunity at one of nearly 25 naval laboratories or warfare centers. Accepted students gain real-world, hands-on experience and research skills while being introduced to the Navy and Marine Corps science and technology environment. Please refer to the program website listed below for additional information, including details about potential stipends and benefits, if applicable.

## Naval Research Enterprise Internship Program (NREIP)

NREIP is a 10-week undergraduate and graduate research internship opportunity at one of nearly 30 naval laboratories or warfare centers. Accepted students gain real-world, hands-on experience and research skills while being introduced to the Navy and Marine Corps science and technology environment. Please refer to the program website listed below for additional information, including details about potential stipends and benefits, if applicable.

## Science, Mathematics & Research for Transformation (SMART)

The SMART scholarship for service program is an opportunity for students pursuing an undergraduate or graduate degree in STEM disciplines to receive a full scholarship and be gainfully employed upon degree completion. Please refer to the program website listed below for additional information, including details about potential stipends and benefits, if applicable.

## National Defense Science & Engineering Graduate (NDSEG)

The NDSEG program provides fellowships to support study and research leading to doctoral degrees in science and technical areas. NDSEG confers high honors upon its recipients, and allows them to attend whichever U.S. institution they choose. Please refer to the program website listed below for additional information, including details about potential stipends and benefits, if applicable.
