

Amendment 0001
BAA 08-013 titled “100 kW FEL”

The purpose of Amendment 0001 is to amend BAA 08-013 as follows:

Section I,
Paragraph 9:

Section I, Paragraph 9 titled “Other Information” is revised to include the following statement:

“Appendix A [for Phase II] will be distributed at Industry Day.”

Phase III subheading, under Section I, Paragraph 9 is revised as follows:

Phase III
subheading,
Section I,
Paragraph 9:

“Phase III - Maritime demo, test, evaluation (to be awarded under separate contract)

In phase III the Navy expects the 100k-W class experimental device, having been designed for portability and eventual installation on a barge or equivalent platform, will be available for further testing as well as for collection of maritime atmospheric propagation and lethality data in ocean arena environments.”

Section IV, Paragraph 1 is revised is revised as follows (changes in bold):

“IV. APPLICATION AND SUBMISSION INFORMATION

1. Application and Submission Process

A detailed list of important dates is provided later in Section IV (Application and Submission Information) paragraph 3 (Significant Dates and Times).

Paragraph 1,
Section IV:

A pre-proposal conference (Industry Day) will be comprised of an open unclassified session and a closed classified session. Attendance at the unclassified session is not restricted; however, attendance at the classified session shall be limited to those companies that are approved government contractors with valid security clearances. The unclassified session will be conducted on **6 May 2008** and the classified session will be conducted on **7 May 2008**). The number of contractor personnel, in any given company, allowed to attend the classified session may be limited based upon the number of attendance requests.

The purpose of the Industry Day will be to provide an opportunity for government and industry to confer on the development, procurement, integration and test of a 100-kW class FEL based upon technology which could be scaled to MW level. The Navy intends to describe its INP program expectations, schedule, events, etc. The Navy is interested in

how both Navy and industry management could maintain “design and fiscal control” of the effort. Discussion of the relationships among the prime, its subcontractors, specialized consultants and any government or university laboratory staffs deemed necessary should be included in the BAA response. The teaming relationships, subcontracting control mechanisms, functional organizational arrangements and management techniques to be used for maintaining technical and budgetary control should be spelled out clearly.

The format of Industry Day will include presentations and the opportunity for questions. Attendance at Industry Day requires a letter of application indicating the sessions to be attended and must also justify a valid interest and capability for performing the BAA demands (either as a prime or a subcontractor to a prime offeror) along with subsequent Navy approval to be present.

White Papers are required prior to submitting a Full Proposal. Initial Navy evaluations of the White Papers will be issued via E-mail notification. Detailed technical and cost proposals will be subsequently encouraged from those Offerors whose proposed technologies have been identified through the above referenced E-mail as being of “particular value” to the Navy. However, any such encouragement does not assure a subsequent award. Any offeror may choose to submit a full proposal even if its white paper was not identified as being of “particular value to the Navy,” but the **initial review** should give offerors some sense of whether a full proposal would likely be funded. Full Proposals will not be considered under this BAA unless a white paper was received before the white paper due date specified later in this BAA.

Full Proposals – It is anticipated that final selections will be made in November 2008. As soon as the final proposal evaluation process is completed, the Offeror will be notified via email of its selection or **non-selection** for an award.”
