

**N00014-18-S-B002, Armored Reconnaissance Vehicle
Amendment 0007**

Please note that, due to the overwhelming response, we require additional time to evaluate the ARV white papers.

We hope to notify you by 19 March of the results and our desire for a full proposal. Because of this delay, we will also shift the due date for full proposals to 25 April.

Thank you again for your submittals and for your patience as we finish the review.

If you did not submit a white paper, you are still eligible to submit a full proposal to Research Area 2 or to any of the ten Technology Focus Areas under Research Area 1, also by 25 April. As always, traditional and non-traditional organizations from industry and academia are encouraged to participate.
