

**Note-This information only applies to requests for supporting information for Research Area 2 proposals.**

**N00014-18-S-B002, Armored Reconnaissance Vehicle (ARV) Advanced Technology  
Development Future Naval Capability  
Amendment 0008**

The Office of Naval Research (ONR) is prepared to provide supporting documentation to those that are developing Research Area 2 (RA 2) proposals.

These documents are:

- “Armored Reconnaissance Vehicle (ARV) Attributes” and
- “Operational Modes Summary/Mission Profile (OMS/MP) for the Armored Reconnaissance Vehicle (ARV).”

The documents will be available **by request only** to offerors developing proposals for Research Area 2 entitled, “Full System Concept Studies, Mockup Fabrication and Full System Technology Demonstrator Prototype Development” and will be provided via U. S. Army Aviation and Missile Research Development and Engineering Center Safe Access File Exchange (AMRDEC SAFE). These documents will be provided based on the results of your CAGE Code review.

ONR retains complete discretion in approving or denying requests for any of the documents mentioned in this amendment.

If you are preparing a proposal addressing Research Area 2 and are interested in the aforementioned documents, please e-mail [Jeff.bradel@navy.mil](mailto:Jeff.bradel@navy.mil) stating which documents you would like to receive. All requests must be received no later than **20 April 2018, 3:00 PM EST.**

To request this information, please provide the following information to Jeff Bradel at the email address above:

1. DUNS Number
2. CAGE Code
3. Company Name
4. Company Address
5. Company Point of Contact, phone number, and email address
