G 9 Type of Award

This is a Firm Fixed Price Contract with Cost Reimbursement CLINs

G 10 Payment and Invoice Instructions Firm Fixed Price (FFP)

PAYMENT AND INVOICE INSTRUCTIONS (FIRM FIXED PRICE OR TIME-AND-MATERIAL/LABOR-HOUR)

All payments shall be made by funds transfers to the bank account registered in the Central Contractor Registration (CCR), http://www.ccr.gov The Awardee agrees to maintain its registration in the CCR including information necessary to facilitate payment via Electronic Funds Transfer (EFT). Should a change in registry or other incident...
necessitate the payment to an account other than that maintained in CCR, it is the Awardee’s responsibility to notify
the Administrative Contracting Office (ACO) and obtain a modification to this Award reflecting the change. The
Government shall not be held responsible for any misdirection or loss of payment which occurs as the result of an
Awardee’s failure to maintain correct/current EFT information within its CCR registration.

Wide Area Work Flow (WAWF) has been designated as the Department of Defense standard for electronic
invoicing and payment. The Office of Naval Research will utilize the WAWF system. This web based system,
located at https://wawf.eb.mil, provides the technology for government contractors and authorized Department
of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless
environment. Payment Requests/Invoices for supplies/services rendered under this contract shall be submitted
electronically through WAWF. Submission of hard copy DD250/invoices will no longer be accepted for
payment.

It is recommended that all persons designated as CCR Electronic Business (EB) Points of Contact, and anyone
responsible for the submission of payment requests, use the online training system for WAWF at
http://wawftraining.com. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the
training system should be reviewed. Vendor Quick Reference Guides are also available at
(http://acquisition.navy.mil/eda/home/acquisition_one_source/ebusiness/don_ebusiness_solutions/wawf_overview/v
endor_information). The most useful guides are “Vendor Self Registration/Account Management” and either
“Invoice 2in1” or “Invoice and Receiving Report (Combo)”; use the former if the invoice is for services only.

To comply with the above initiative, the Awardee must register in WAWF and have the appropriate CAGE code
activated. Your CCR EB Point of Contact is responsible for activating the CAGE code in WAWF by calling 1-866-
618-5988. Once the CAGE Code is activated, the CCR EB Point of Contact will self-register in WAWF
(https://wawf.eb.mil) and follow the instructions for a group administrator. After the CAGE Code is set-up on
WAWF, any additional persons responsible for submitting invoices must self-register in WAWF.

After self-registering and logging on to the WAWF system, click on the plus sign next to the word “Vendor” and
then click on the “Create New Document” link. Enter the Contract Number (no dashes), Delivery Order (if
applicable) and CAGE Code, and then hit Continue. (Note - Some codes may automatically pre-populate in WAWF;
if they do not, they should be entered manually)

Enter the Pay DODAAC and hit Submit.

and Receiving Report, DD Form 250. Fill in the additional required information (if it has not been pre-populated)
and hit Continue.

Fill in all applicable information under each tab within the document. Back up documentation (5MB limit) can be included and attached to the invoice in WAWF under the “Misc Info” tab.

Helpful Note: Shipment Number format should be three (3) alpha and four (4) numeric characters (e.g., SER0001).

Take special care when you enter Line Item information - the Line Item tab is where you will detail your request for payment and material/services that were provided based upon the contract. Be sure to fill in the following two informational items exactly as they appear in the contract:

**Item Number:** If the contract schedule has more than one ACRN listed as sub items under the applicable Contract Line Item Number (CLIN), use the 6 character separately identified Sub Line Item Number (SLIN) (e.g. – 0001AA) or Informational SLIN (e.g. – 000101), otherwise use the 4 character CLIN (e.g. – 0001).

**ACRN:** Fill-in the applicable 2 alpha character ACRN that is associated with the SLIN or CLIN. (Note – Do not invoice for more than is still available under any ACRN)

After all required information is included, click on the “Create Document” button under the “Header” tab.

**Special Payment Instructions for CLIN/SLINs with Multiple ACRNs/Lines of Accounting:**

For all invoices submitted against CLINs with multiple Accounting Classification Reference Numbers (ACRNs), the billing shall be paid from the earliest Fiscal Year (FY) appropriation first. Fiscal Year is determined from the 3rd character in the “Appropriation (Critical)” part (Block 6B) of the Line of Accounting on the Financial Accounting Data Sheet of the contract (e.g., 1781319 for FY 2008 and 1791319 for FY 2009). In the event there are multiple ACRNs with the same FY of appropriation, billings shall be proportionally billed to all ACRNs for that FY in the same ratio that the ACRNs are obligated.

If you have any questions regarding WAWF, contact the DoD WAWF Assistance Line at 1-866-618-5988.

For additional clarification on the correct Codes to use or on proper invoicing procedures, contact the ADMINISTERED BY Office on page one of the award document.

For payment status questions, contact the PAYMENT WILL BE MADE BY Office listed on page one of the award document or visit the DFAS My Invoice system (https://myinvoice.csd.disa.mil).

**G 11 Limitation of Government Obligation (Firm Fixed Price CLINS)**

*FAR 52.232-16 Progress Payments. (APR 2012)*

*DFARS 252.232-7004 DoD Progress Payment Rates. (OCT 2014)*

*DFARS 252.232-7007 Limitation of Government's obligation. (APR 2014)*

(a) Contract line item(s) 0001, 0008, 0015, 0022, 0029 is/are incrementally funded. For this/these item(s), the sum of $TBD of the total price is presently available for payment and allotted to this contract. An allotment schedule is set forth in paragraph (j) of this clause.

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government's convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled "Termination for Convenience of the Government." As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those items(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the
Contractor's best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for a subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause, or otherwise agreed to by the parties. If after such notification additional funds are not allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraph (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "Disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "Default." The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) or (e) of this clause.

(h) Nothing in this clause affects the right of the Government to terminate this contract pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

(j) The parties contemplate that the Government will allot funds to this contract in accordance with the following schedule:

(b) The contracting office is responsible for administering the contract and for taking any action on behalf of the Government under the terms and conditions of the contract; provided that the contracting office shall give advance notice to the SBA before it issues a final notice terminating performance, either in whole or in part, under the contract. The contracting office also shall coordinate with the SBA prior to processing any novation agreement. The contracting office may assign contract administration functions to a contract administration office.

(c) The 8(a) Contractor agrees that:

"Non-public information" means any Government or third-party information that-

(1) Is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552) or otherwise protected from disclosure by statute, Executive order, or regulation; or

(2) Has not been disseminated to the general public and the Government has not yet determined whether the information can or will be made available to the public.

"Personal conflict of interest" means a situation in which a covered employee has a financial interest, personal activity, or relationship that could impair the employee's ability to act impartially and in the best interest of the Government when performing under the contract. (A de minimis interest that would not "impair the employee's ability to act impartially and in the best interest of the Government" is not covered under this definition.)

(1) Among the sources of personal conflicts of interest are-

(i) Financial interests of the covered employee, of close family members, or of other members of the covered employee's household;

(ii) Other employment or financial relationships (including seeking or negotiating for prospective employment or business); and

(iii) Gifts, including travel.

(2) For example, financial interests referred to in paragraph (1) of this definition may arise from-

(A) Financial interests of the covered employee, of close family members, or of other members of the covered employee's household.

(B) Other employment or financial relationships of the covered employee (including seeking or negotiating for prospective employment or business).

(C) Gifts, including travel; and

(ii) Requiring each covered employee to update the disclosure statement whenever the employee's personal or financial circumstances change in such a way that a new personal conflict of interest might occur because of the task the covered employee is performing.

(2) For each covered employee-

(i) Prevent personal conflicts of interest, including not assigning or allowing a covered employee to perform any task under the contract for which the Contractor has identified a personal conflict of interest for the employee that the Contractor or employee cannot satisfactorily prevent or mitigate in consultation with the contracting agency;

(End of clause)

(End of clause)

DFAR Deviations 252.204-7012 Safeguarding Covered Defense Information and Cyber Incident Reporting (DEVIATION 2016-O0001)(OCT 2015)

(a) Definitions. As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Contractor information system” means an information system belonging to, or operated by or for, the Contractor.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified information that—

(i) Is—

(A) Provided to the contractor by or on behalf of DoD in connection with the performance of the contract; or
(B) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract; and

(ii) Falls in any of the following categories:

(A) Controlled technical information.

(B) Critical information (operations security). Specific facts identified through the Operations Security process about friendly intentions, capabilities, and activities vitally needed by adversaries for them to plan and act effectively so as to guarantee failure or unacceptable consequences for friendly mission accomplishment (part of Operations Security process).

(C) Export control. Unclassified information concerning certain items, commodities, technology, software, or other information whose export could reasonably be expected to adversely affect the United States national security and nonproliferation objectives. To include dual use items; items identified in export administration regulations, international traffic in arms regulations and munitions list; license applications; and sensitive nuclear technology information.

(D) Any other information, marked or otherwise identified in the contract, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Government wide policies (e.g., privacy, proprietary business information).

“Cyber incident” means actions taken through the use of computer networks that result in an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

“Rapid(ly) report(ing)” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security for all covered defense information on all covered contractor information systems that support the performance of work under this contract. To provide adequate security, the Contractor shall—

(1) Implement information systems security protections on all covered contractor information systems including, at a minimum—

(i) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government—
(A) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract; and

(B) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract; or

(ii) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1)(i) of this clause—

(A) The security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations,” (see http://dx.doi.org/10.6028/NIST.SP.800-171) that is in effect at the time the solicitation is issued or as authorized by the Contracting Officer with the exception of the derived security requirement 3.5.3 “Use of multifactor authentication for local and network access to privileged accounts and for network access to non-privileged accounts”, which will be required not later than 9 months after award of the contract, if the Contractor notified the contracting officer in accordance with paragraph (c) of the provision 252.204-7008, Compliance with Safeguarding Covered Defense Information Controls (DEVIATION 2016-O0001)(OCT 2015); or

(B) Alternative but equally effective security measures used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection approved in writing by an authorized representative of the DoD Chief Information Officer (CIO) prior to contract award; and

(2) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor’s ability to perform the requirements of the contract that are designated as operationally critical support, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor’s network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor’s ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at http://dibnet.dod.mil.

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at http://dibnet.dod.mil.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see http://iase.disa.mil/pki/eca/Pages/index.aspx.

(d) Malicious software. The Contractor or subcontractors that discover and isolate malicious software in connection with a reported cyber incident shall submit the malicious software in accordance with instructions provided by the Contracting Officer.
(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

1. To entities with missions that may be affected by such information;
2. To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
3. To Government entities that conduct counterintelligence or law enforcement investigations;
4. For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
5. To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) Subcontracts. The Contractor shall—

1. Include the substance of this clause, including this paragraph (m), in all subcontracts, including subcontracts for commercial items; and
(2) Require subcontractors to rapidly report cyber incidents directly to DoD at http://dibnet.dod.mil and the prime Contractor. This includes providing the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable.

FAR 52.232-32 Performance-Based Payments. (APR 2012)

(a) *Amount of payments and limitations on payments.* Subject to such other limitations and conditions as are specified in this contract and this clause, the amount of payments and limitations on payments shall be specified in the contract's description of the basis for payment.

(b) *Contractor request for performance-based payment.* The Contractor may submit requests for payment of performance-based payments not more frequently than monthly, in a form and manner acceptable to the Contracting Officer. Unless otherwise authorized by the Contracting Officer, all performance-based payments in any period for which payment is being requested shall be included in a single request, appropriately itemized and totaled. The Contractor's request shall contain the information and certification detailed in paragraphs (l) and (m) of this clause.

(c) *Approval and payment of requests.* (1) The Contractor shall not be entitled to payment of a request for performance-based payment prior to successful accomplishment of the event or performance criterion for which payment is requested. The Contracting Officer shall determine whether the event or performance criterion for which payment is requested has been successfully accomplished in accordance with the terms of the contract. The Contracting Officer may, at any time, require the Contractor to substantiate the
successful performance of any event or performance criterion which has been or is represented as being payable.

(2) A payment under this performance-based payment clause is a contract financing payment under the Prompt Payment clause of this contract and not subject to the interest penalty provisions of the Prompt Payment Act. The designated payment office will pay approved requests on the 30th day after receipt of the request for performance-based payment by the designated payment office. However, the designated payment office is not required to provide payment if the Contracting Officer requires substantiation as provided in paragraph (c)(1) of this clause, or inquires into the status of an event or performance criterion, or into any of the conditions listed in paragraph (e) of this clause, or into the Contractor certification. The payment period will not begin until the Contracting Officer approves the request.

(3) The approval by the Contracting Officer of a request for performance-based payment does not constitute an acceptance by the Government and does not excuse the Contractor from performance of obligations under this contract.

(d) Liquidation of performance-based payments. (1) Performance-based finance amounts paid prior to payment for delivery of an item shall be liquidated by deducting a percentage or a designated dollar amount from the delivery payment. If the performance-based finance payments are on a delivery item basis, the liquidation amount for each such line item shall be the percent of that delivery item price that was previously paid under performance-based finance payments or the designated dollar amount. If the performance-based finance payments are on a whole contract basis, liquidation shall be by either predesignated liquidation amounts or a liquidation percentage.

(2) If at any time the amount of payments under this contract exceeds any limitation in this contract, the Contractor shall repay to the Government the excess. Unless otherwise determined by the Contracting Officer, such excess shall be credited as a reduction in the unliquidated performance-based payment balance(s), after adjustment of invoice payments and balances for any retroactive price adjustments.

(e) Reduction or suspension of performance-based payments. The Contracting Officer may reduce or suspend performance-based payments, liquidate performance-based payments by deduction from any payment under the contract, or take a combination of these actions after finding upon substantial evidence any of the following conditions:

(1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (h) and (i) of this clause).

(2) Performance of this contract is endangered by the Contractor's-

   (i) Failure to make progress; or

   (ii) Unsatisfactory financial condition.

(3) The Contractor is delinquent in payment of any subcontractor or supplier under this contract in the ordinary course of business.

(f) Title. (1) Title to the property described in this paragraph (f) shall vest in the Government. Vestiture shall be immediately upon the date of the first performance-based payment under this contract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this contract.

(2) "Property," as used in this clause, includes all of the following described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices:

   (i) Parts, materials, inventories, and work in process;
(ii) Special tooling and special test equipment to which the Government is to acquire title;

(iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment and other similar manufacturing aids, title to which would not be obtained as special tooling under subparagraph (f)(2)(ii) of this clause; and

(iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.

(3) Although title to property is in the Government under this clause, other applicable clauses of this contract (e.g., the termination clauses) shall determine the handling and disposition of the property.

(4) The Contractor may sell any scrap resulting from production under this contract, without requesting the Contracting Officer’s approval, provided that any significant reduction in the value of the property to which the Government has title under this clause is reported in writing to the Contracting Officer.

(5) In order to acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor shall obtain the Contracting Officer’s advance approval of the action and the terms. If approved, the basis for payment (the events or performance criteria) to which the property is related shall be deemed to be not in compliance with the terms of the contract and not payable (if the property is part of or needed for performance), and the Contractor shall refund the related performance-based payments in accordance with paragraph (d) of this clause.

(6) When the Contractor completes all of the obligations under this contract, including liquidation of all performance-based payments, title shall vest in the Contractor for all property (or the proceeds thereof) not-

(i) Delivered to, and accepted by, the Government under this contract; or

(ii) Incorporated in supplies delivered to, and accepted by, the Government under this contract and to which title is vested in the Government under this clause.

(7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.

(g) Risk of loss. Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. If any property is lost (see 45.101), the basis of payment (the events or performance criteria) to which the property is related shall be deemed to be not in compliance with the terms of the contract and not payable (if the property is part of or needed for performance), and the Contractor shall refund the related performance-based payments in accordance with paragraph (d) of this clause.

(h) Records and controls. The Contractor shall maintain records and controls adequate for administration of this clause. The Contractor shall have no entitlement to performance-based payments during any time the Contractor’s records or controls are determined by the Contracting Officer to be inadequate for administration of this clause.

(i) Reports and Government access. The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information requested by the Contracting Officer for the administration of this clause and to determine that an event or other criterion prompting a financing payment has been successfully accomplished. The Contractor shall give the Government reasonable opportunity to examine and verify the Contractor’s records and to examine and verify the Contractor’s performance of this contract for administration of this clause.
(j) Special terms regarding default. If this contract is terminated under the Default clause, (1) the Contractor shall, on demand, repay to the Government the amount of unliquidated performance-based payments, and (2) title shall vest in the Contractor, on full liquidation of all performance-based payments, for all property for which the Government elects not to require delivery under the Default clause of this contract. The Government shall be liable for no payment except as provided by the Default clause.

(k) Reservation of rights. (1) No payment or vesting of title under this clause shall -

(i) Excuse the Contractor from performance of obligations under this contract; or

(ii) Constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause-

(i) Shall not be exclusive, but rather shall be in addition to any other rights and remedies provided by law or this contract; and

(ii) Shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(l) Content of Contractor's request for performance-based payment. The Contractor's request for performance-based payment shall contain the following:

(1) The name and address of the Contractor;

(2) The date of the request for performance-based payment;

(3) The contract number and/or other identifier of the contract or order under which the request is made;

(4) Such information and documentation as is required by the contract's description of the basis for payment; and

(5) A certification by a Contractor official authorized to bind the Contractor, as specified in paragraph (m) of this clause.

(m) Content of Contractor's certification. As required in paragraph (l)(5) of this clause, the Contractor shall make the following certification in each request for performance-based payment:

I certify to the best of my knowledge and belief that-

(1) This request for performance-based payment is true and correct; this request (and attachments) has been prepared from the books and records of the Contractor, in accordance with the contract and the instructions of the Contracting Officer;

(2) (Except as reported in writing on __________), all payments to subcontractors and suppliers under this contract have been paid, or will be paid, currently, when due in the ordinary course of business;

(3) There are no encumbrances (except as reported in writing on __________) against the property acquired or produced for, and allocated or properly chargeable to, the contract which would affect or impair the Government's title;

(4) There has been no materially adverse change in the financial condition of the Contractor since the submission by the Contractor to the Government of the most recent written information dated ___________; and
(5) After the making of this requested performance-based payment, the amount of all payments for each deliverable item for which performance-based payments have been requested will not exceed any limitation in the contract, and the amount of all payments under the contract will not exceed any limitation in the contract.

FAR 52.209-5 Certification Regarding Responsibility Matters. (OCT 2015)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are [ ] are not [ ] presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have [ ] have not [ ], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are [ ] are not [ ] presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision; and

(D) Have [ ], have not [ ], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
(2) Examples. (i) The taxpayer has received a statutory notice of
deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek
Tax Court review of a proposed tax deficiency. This is not a delinquent
tax because it is not a final tax liability. Should the taxpayer seek Tax
Court review, this will not be a final tax liability until the taxpayer has
exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect
to an assessed tax liability, and the taxpayer has been issued a
notice under I.R.C. Sec. 6320 entitling the taxpayer to request
a hearing with the IRS Office of Appeals contesting the lien
filing, and to further appeal to the Tax Court if the IRS
determines to sustain the lien filing. In the course of the
hearing, the taxpayer is entitled to contest the underlying tax
liability because the taxpayer has had no prior opportunity to
contest the liability. This is not a delinquent tax because it is
not a final tax liability. Should the taxpayer seek tax court
review, this will not be a final tax liability until the taxpayer
has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement
pursuant to I.R.C. Sec. 6159. The taxpayer is making timely
payments and is in full compliance with the agreement terms.
The taxpayer is not delinquent because the taxpayer is not
currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The
taxpayer is not delinquent because enforced collection action
is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has [ ] has not [ ], within a 3-year period preceding this offer, had one or
more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a
person having primary management or supervisory responsibilities within a business entity (e.g.,
general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to
contract award, the Offeror learns that its certification was erroneous when submitted or has become
erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in
withholding of an award under this solicitation. However, the certification will be considered in connection
with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or
provide such additional information as requested by the Contracting Officer may render the Offeror
nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in
order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge
and information of an Offeror is not required to exceed that which is normally possessed by a prudent
person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which
reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an
erroneous certification, in addition to other remedies available to the Government, the Contracting Officer
may terminate the contract resulting from this solicitation for default.

      (A) The payment of a monetary fine or penalty of $5,000 or more; or

      (B) The payment of a reimbursement, restitution, or damages in excess of $100,000.

   (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.
(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management database via https://www.acquisition.gov (see 52.204-7).

SECTION L - Instructions, Conditions, and Notices to Bidders

I. 1 Exceptions or Conditions Contained in Offeror's Proposal

In the event the offeror takes any exception to, or sets any conditions for its proposal under this solicitation, such exceptions or conditions shall be set forth in a cover letter to offeror’s proposal.

I. 2 Eligibility

This solicitation is reserved for only Section 8(a) Small Business concerns.

I. 3 Introduction
Proposals must be submitted no later than date, time and format specified in this solicitation. Proposals shall be sufficiently detailed to enable the Government to perform an accurate and complete evaluation strictly from the proposal contents. However, in the area of Past Performance the Government may use data obtained from other sources. The offeror’s proposal shall consist of four volumes. The volumes are I – Solicitation, Legal Offer Letter, Offer and Award Document (SF33) and Quality Control Plan; II – Technical Capability to include Staffing Plan and Management Plan; III – Past Performance; and IV – Price/Cost. Files shall not contain any classified data. The use of hyperlinks in proposals is prohibited. Offerors shall indicate in their proposal the validity of proposal for at least 120 days from the closing date of solicitation N00014-16-R-0014.

L 4 Proposal Format

In order to maximize efficiency and minimize the time for proposal evaluation, it is required that all offerors submit their proposals in accordance with the format and content specified. The electronic proposal shall be prepared so that if an evaluator prints the proposal, the proposal meets the following format requirements:

Microsoft Office Professional 2007 or later shall be used to create the files. All graphics shall be compatible with MS PowerPoint 2007. All information pertaining to a particular file shall be confined to that file. The titles for each file, along with the references are shown below. Each file shall contain the applicable proposal information in the referenced paragraph. All proposal submissions shall be clearly indexed and logically assembled. Each volume shall be clearly identified and shall begin at the top of a page. All pages of each volume shall be appropriately numbered and identified by the complete company name, date and solicitation number in the header and/or footer. A Table of Contents shall be created. MS Word (.doc) files shall use the following page setup parameters:

a. 8.5 x 11 inch paper
b. Single spaced typed lines
c. Each paragraph shall be separated by at least one blank line
d. Photographs, pictures and hyperlinks are not permitted
e. Corporate logos are prohibited with the exception of the Title Page
f. Page numbers, headers and footers may be within the page margins ONLY, and are not bound by font requirements
g. 1 inch margins (top, bottom, left, right)
h. 12-point Times New Roman Font in text (10 point Times New Roman Font in tables is permitted)
i. Table, diagrams and organization charts are permitted if they succinctly demonstrate your point (landscape orientation is permitted)
j. No ZIP Files
k. All file names shall include the Prime or Subcontractors Name and Title of document

Pages that exceed the margin, font or total page limit will not be evaluated. Page count will NOT be based upon the numbers of pages printed but rather dictated by the number of pages in a print layout view in the application based upon the above-prescribed document setting. Counting pages in the order they appear for viewing will make up the page count.

L 4.1 File Packaging

Proposals shall be limited to four (4) volumes and delivered on DVDs per volume as referenced in Table 1 below, with hard copies, bound and delivered as follows:

a) Page Count. Those pages that exceed the page counts in Table 1 for each volume or attachment shall not be evaluated. Proposals shall be limited in the number of pages specified in Table 1 above. Pages will be counted in the order they appear for viewing.

b) Content Requirements. All information shall be confined to the appropriate file. The offeror shall confine submissions to essential matters, sufficient to define the proposal and provide adequate basis for evaluation. Offerors are responsible for including sufficient details, in a concise manner, to permit a complete and accurate evaluation of each proposal. Each file of the proposal shall consist of a Table of Contents and Summary Section. The Summary Section shall contain a brief abstract of the file. The Government may consider any failure on the part of an offeror to comply with these instructions to be indicative of the type of conduct it can expect during contract performance. Proprietary information shall be clearly marked.

c) Proposals shall include two (2) (original and one copy) of separately bound hard copies of Volumes I, II, III and IV. Proposals shall also include ten (10) Digital Versatile Discs (DVDs), one (1) containing Volume I only, four (4) containing Volume II, four (4) containing Volume III, and one (1) containing Volume IV only. The DVDs must be clearly labeled with the solicitation number, volume numbers, and the offeror’s name. Digital copies for Volumes I, II, and III shall be submitted as “read only” (PDF) documents or Microsoft Office Professional 2007 Suite (Word) documents. Digital copies for Volume IV shall be submitted as a Microsoft Office Professional Suite Excel spreadsheet (Attachment #10). All formulas shall remain in the spreadsheet so as to allow for Government evaluation of price. For example, the Government should be able to change a cell containing a specific labor rate for an individual and have the change flow through the spreadsheet automatically. However, offerors may revise the formulas to accurately reflect their proposed accounting practices. If there are discrepancies between the electronic version (DVD) and the hard copy, the hard copy shall take precedence and shall be considered binding.

Offerors are responsible for submitting responses to the Government office designated below by the time specified in this solicitation. In order to conform with this solicitation the offeror shall submit their responses along with supporting documents as required by 12:00 pm Eastern Daylight Savings Time on January 4, 2016 to Ms. Tracie Simmons. Any response received after the date/time specified for receipt of offers will be considered “late”. It is the responsibility of the offeror to ensure that your response is received in a timely manner.

Proposals must be submitted via one of the following two methods:

1) Hand Delivery: The proposals may be hand delivered to the address below. Offerors must notify the Government via e-mail to Ms. Tracie Simmons at tracie.simmons@navy.mil or by telephone at 703-696-7827 to coordinate the hand delivery and receipt of proposal.

2) FedEx/UPS: The proposals may be sent via FedEx or UPS to the address below.

Note: The use of United States Postal Service (USPS) for the submission of proposal is NOT recommended as it may significantly delay the receipt of proposal by the Government for evaluation.

ATTN: Ms. Tracie Simmons
Office of Naval Research
One Liberty Center
875 N. Randolph Street
d) Questions. Any questions regarding this solicitation must be submitted in writing via email to tracie.simmons@navy.mil with the solicitation number referenced in the subject line. Telephonic inquiries will not be accepted. In order to allow sufficient time to answer questions, questions must be submitted no later than 6 JAN 2016 at 12:00 pm Eastern Daylight Savings Time. Questions submitted after this date will not be answered and the due date for submission of proposals may not be extended based on the questions submitted. Offerors are encouraged to carefully review all solicitation requirements and submit questions to the Government early in the proposal cycle. Answers to the solicitation questions will be posted on Federal Business Opportunities (FedBizOps) web site at http://www.fbo.gov as an amendment to this solicitation.

e) The proposal shall contain the solicitation number, narrative and other data sufficient to describe the associated element of the proposal. Offerors must comply with the detailed instructions for the format and content of the proposal. An offeror’s failure to furnish the necessary information and failure to comply with the detailed instructions for the format and content of the proposal may be considered nonresponsive and may render the offeror ineligible for award. A proposal received after the solicitation closing date and time shall be rejected.

f) The offeror’s proposal will be the primary basis on which the Government will determine the capability of the offeror’s to perform this requirement. It shall be specific, complete, thorough, clear and concise, and must address each task in the solicitation and each factor in Section M. The Offeror’s proposal shall be presented in separate volumes so that all information associated for each factor (Solicitation, Legal Offer Letter, Offer and Award Document (SF33), Technical, Past Performance, and Price) is easily distinguishable. Information contained in a volume that belongs in another volume will not be evaluated. The Government will not evaluate information of a general nature that is not relevant to the topic being evaluated.

g) The proposal shall not merely offer to comply with the Government’s requirements by simply restating them, but shall specifically describe the means of accomplishment. The proposal in its entirety should be specific, detailed, and complete in order to demonstrate that the offeror has a thorough understanding of the solicitation requirements. Statements such as “the offeror understands, can or will comply with the requirements”, statements that paraphrase the statement of work (SOW) or ambiguous phrases such as “standard procedures will be employed” or “well known techniques will be used” will be considered unacceptable. Additionally, providing examples of past performance as a response to a task, while helpful, does not indicate an offeror’s approach to performing a task.

I. 5 Proposal Content

I. 5.1 Volume I – Solicitation, Legal Offer Letter, Offer and Award Document (SF33) and Quality Control Plan

a. Legal Offer Letter: The legal offer shall indicate the offeror’s unconditional agreement to the terms and conditions in this solicitation. An authorized official of the company shall sign the offer letter.

b. Each offeror shall complete (fill-ins and signatures) the solicitation sections indicated below using the file (without modification to the file) provided with the solicitation. An authorized official of the company shall sign the SF 33 and all certifications requiring original signature. The Government will also check the contractors Representations and Certifications located in the System for Award Management (SAM) prior to award. Volume II shall cover all contract years. It is imperative that you fully describe how you will meet the sub-factor requirements. Do not simply copy and paste, rephrase or restate SOW language for the technical volume. The successful offeror’s Staffing Plan and Management Plan shall be incorporated into the contract by reference. Volume II shall discuss the following:

1. The overall technical requirements and proposed implementation for satisfying the technical requirements contained within the SOW.

2. Describe the work performed and how it relates to your ability to provide the services as stated in the SOW. Failure to clearly articulate how the corporate experience examples correlate to the work to be done in the SOW may result in an unfavorable evaluation. For each example, include the contract number; the name of the contracting officer; contracting officer’s representative (COR) or commercial point of contact (POC) and his or her telephone number and e-mail address; the dollar amount of the contract; period of performance of each example and contract tier (i.e. prime or sub).

3. Personnel Qualifications and Experience: The offeror shall describe its proposed team. In addition, offerors shall detail how the proposed individual meets the “required” education, experience and security requirements identified for that labor category in accordance with Section C, Paragraph 3.2. A resume for the supplemental labor support positions are not required and will not be evaluated for this source selection. No more than ten (10) resumes will be evaluated for this source selection, one for each labor category identified in Section C, Paragraph 2.0. Resumes are considered a material part of the proposal. Resumes of any personnel not currently employed by the offeror or their subcontractor must contain a statement signed by the individual that use of their resume for this solicitation is authorized. In addition, the offeror must provide signed letters of intent for all individuals not currently employed with them. Letter of intent submitted with the technical proposal shall have all cost data redacted.

    Each resume shall not exceed two (2) pages for each individual proposed. Resumes shall not exceed twenty (20) pages.

The Plan must contain the following information: labor category; tie-back to tasks in SOW; name of contractor employee; and how the prime contractor will verify the experience and education of the contractor employee for verification that the employee meets the personnel qualifications specified in Section C, Paragraphs 3.1 and 3.2 of the SOW. The offeror shall also address which labor categories shall be filled by subcontractor or its own employees. The offeror shall also address plans in the event of prime and/or subcontractor withdrawals or addition of resources required, and staffing updates, throughout the period of performance.

    b. A strategy to fill vacancies in a timely manner and average time to fill a position, strategy to retain full staffing and incentives used to hire and retain personnel (Secret Clearance for some labor categories).

   d. Address the period of transition from the current contract as well as operations under the new contract.

The management plan shall not exceed eight (8) pages

The Technical volume shall be organized as follows:

L 5.3 Volume III – Past Performance

Offerors shall provide information relative to previous work for the same or similar services provided for all past and on-going work in Government and Non-Government contracts for Corporate Logistics Support Services.

Offerors must complete Attachment Number 11 to detail and summarize the past performance information requested in this subsection. Offerors shall provide at least three (3) relevant past performance examples of contract efforts performed with similar size, scope, and complexity. Past performance examples must have been performed within the past three years. Relevant past performance is defined as efforts performed in the past three years that directly track to the functional areas of the SOW for this effort. Data concerning the prime offeror shall be provided first, followed by each proposed major subcontractor, in alphabetical order. A major subcontractor is defined as one who is performing at least $1M worth of the total proposed cost, excluding ODCs. Past performance information from subcontractors will not be considered unless the subcontractor is performing at least $1M worth of the total proposed cost, excluding ODC’s. Subcontractor past performance can only replace one (1) past performance example for the prime. The prime contractor is still required to provide at least two (2) past performance examples.

For each contract example identified, the offeror shall provide at least two of the following points of contacts: Program Manager, Contracting Officer or Contracting Officer Representative. The offeror shall provide phone number and email address for each point of contact identified.

For each of the contract efforts identified, provide the following narrative information:

(a) Description of the contract/task order work statement and effort performed.

(b) Discussion of how the scope for the contract/task order relates to the solicited effort in scope and complexity.

(c) Show the relation of the work experience described in the three (3) contract efforts to the corresponding SOW task.

(d) Description of the significant achievements, challenges or obstacles that were encountered during contract performance and the measures taken to overcome them.

Offerors shall request customer POC’s associated with each of the contracts they identified to complete past performance questionnaires on their behalf. The questionnaire included in Section J (Attachment Number 12) of this
solicitation is provided for the offeror or its subcontractor to submit to their clients for each contract effort identified in the offeror’s proposal for Past Performance. **Completed Past Performance Questionnaires shall be e-mailed directly from the client (POC/COR) to Ms. Tracie Simmons at tracie.simmons@navy.mil on or prior to the closing date of this solicitation.** Questionnaires received after the due date of full proposals will not be considered. A completed Attachment Number 12 is not required for identified contracts if annual ratings are available for that effort on CPARS. Offerors must clearly annotate annual rating are available on CPARS in both the technical and price volumes.

If the offeror does not have three (3) recent and relevant contract efforts, from which it can request past performance questionnaires be completed, the offeror shall make such a statement in this section of the proposal.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS), including Contractor Performance Assessment Reporting System (CPARS), using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror’s proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

I. 5.4 Volume IV – Price

Note: All documents submitted with the price volume shall contain the attachment number and the prime or subcontractors name.

a. Cost Summary: Section B fill-ins shall be completed by offeror. Offerors shall bid the Not-to-Exceed amount established in Section G, Paragraph 18.1, for the Other Direct Cost CLINs. These Not to Exceed costs include G&A without fee and offerors shall not bid any higher than the amounts established in Section G, Paragraph 18.1. The Section B fill-ins shall match the amounts proposed in Attachment Number 10 or the price volume may be evaluated as unacceptable.

b. Offerors shall complete Attachment Number 10: Cost Proposal Spreadsheet which itemizes all proposed costs, including each labor category with associated hours, hourly rate, fringe benefits, labor overhead, consultants, subcontractors, subcontractor pass through costs, G&A, cost of money, fixed fee and any other associated indirect costs. The cost proposal spreadsheet shall provide a separate worksheet for each of the five (5) years of contract performance and an overall tab on the spreadsheet for the entire effort. ODCs shall not be included in the individual year spreadsheets, but shall be included in the overall cost spreadsheet for total price. All formulas shall remain in the spreadsheet so as to allow for Government evaluation of price. For example, the Government should be able to change a cell containing a specific labor rate for an individual and have the change flow through the spreadsheet automatically. However, offerors may revise the formulas to accurately reflect their proposed accounting practices. Any proposal that does not contain subcontractor cost information (if applicable) may be considered incomplete and non-responsive.

c. Prime Offerors must include a brief narrative in their cost volume stating the contract type for each subcontractor and the business reason supporting any difference from the prime contract type. Each subcontractor shall be addressed separately in the proposal and detailed cost information shall be provided in the same format as required for the prime contractor. Subcontractors shall submit their own Attachment Number 10 that summarizes their portion of the cost proposed. Cost data provided separately by a subcontractor must be received by the time and date specified for receipt of proposals. Failure to provide the required subcontracting data may render the prime’s proposal ineligible for award. This solicitation is reserved for only Section 8(a) Small Business concerns. Prime offerors are responsible for certifying that 51% of the cost of the contract performance is performed by the prime offerors employees, excluding ODCs. Prime offerors must demonstrate in the price volume how this will be accomplished.

d. Offerors and their subcontractors shall provide DCMA/DCAA Forward Pricing Rate Agreements/Recommendations or provisional billing rates. Offerors and their subcontractors shall also provide a
current up-to date direct point of contact (Name, Phone Number and E-mail Address) at DCMA who is familiar with their company.

e. Offerors shall provide evidence of an approved accounting system to be authorized cost reimbursement ODC CLINs and fixed price progress payments. In accordance with FAR 16.301-3(a), a cost reimbursement contract may be used only when the contractor’s accounting system is adequate for determining costs applicable to the contract. In accordance with FAR 52.232-13, Notice of Progress Payments (APR 1984), the clause shall be inoperative during any time the contractor’s accounting system and controls are determined by the Government to be inadequate for segregation and accumulation of contract costs. This accounting system requirement will be reviewed by the Government to determine if an offerors proposal is responsive to the requirement. Any proposal that does not contain evidence of an approved accounting system shall be considered incomplete and non-responsive and will not be considered for award.

f. Direct Rate Substantiating Documentation: Offerors, to include subcontractors are required to provide a screen shot of the employer’s payroll system for each individual being proposed as direct labor. If offerors do not currently employ the individual proposed, a signed letter of intent demonstrating the agreed upon hourly rate for that proposed individual is required. The Offeror should fully explain the pertinent information on a screen shot sample. Based on the explanation provided, the Government should be able to calculate the proposed hourly rate.

g. Offerors, to include subcontractors must identify and justify the proposed escalation used in the option periods of this proposal. If no escalation is proposed for the option periods, offerors, to include subcontractors must provide their rationale.

h. Limitations on providing support services (organization conflict of interest). The offeror shall include a section in its cost volume that addresses any known OCI issues. The offeror shall warrant that to the best of its knowledge and belief it does not have an organizational conflict of interest as defined in the Office of Naval Research “Statement of Policy on OCI” or, if a potential OCI exists, it shall provide all facts relevant to the existence or potential existence of Organizational Conflicts of Interest (OCI). Information regarding ONR’s Statement of Policy on OCI can be found at http://www.onr.navy.mil/en/About-ONR/compliance-protections/Organizational-Conflicts-Interest.aspx. The ONR policy includes the ONR position that avoidance and neutralization of any potential OCIs are preferable to mitigation.

The warranty or disclosure shall address the following:

1. Disclose any Research and Development efforts funded by the Office of Naval Research through an active contract or subcontract. Identify the Government Technical Point of Contact(s) and identify the prime contract number(s).

2. For potential conflicts of interest, the Offeror’s plan to effectively resolve identified conflicts in accordance with ONR’s Statement of Policy Regarding OCI. “Contractor”, as used in this clause includes any affiliate, subcontractor, consultant, or employee of the Contractor, as well as any joint venture involving the Contractor, any entity into or with which it may subsequently merge or affiliate, or any other successor or assignee of the Contractor. (1) In lieu of submitting certified cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

SECTION M - Evaluation Criteria

M 1 Basis for Award

The following conditions must be met in order to be eligible for award:

(i) The proposal must comply in all material respects with the requirements of the law, regulation and conditions set forth in this solicitation.
(ii) The proposal must meet the solicitation requirements.
This acquisition is a best value source selection conducted in accordance with the Federal Acquisition Regulation (FAR) 15.101-2, Lowest Price Technically Acceptable Source Selection Process. The Government intends to award a single contract resulting from this solicitation to the offeror whose proposal conforms to the solicitation and offers the lowest evaluated price that meets or exceeds the acceptability standards for non-cost factors. Lowest price is determined by the lowest evaluated price.

The Government reserves the right to hold discussions or to award based upon initial offers. Therefore, offeror’s initial proposals should contain the offeror’s best terms from a technical, past performance, and price standpoint. In the event discussions are conducted; a competitive range will be established in accordance with FAR 15.306(c)(1), and discussions will be held in accordance with FAR 15.306(d).

Evaluation of an offeror's proposal will be based on the information presented in the written proposal along with any input obtained from outside sources relevant to past performance only. The Government will evaluate all proposals for compliance with the terms, conditions, and requirements set forth in the solicitation. Failure to address each of the areas identified in Section L will impact resulting evaluation ratings. If a rating of unacceptable is received for any evaluation factor, the Government reserves the right not to evaluate the cost for that proposal and will eliminate that proposal from consideration.

M 2 Evaluation Factors and Sub-Factors To Be Evaluated

The factors and sub-factors below will be used in evaluation and selection of offers for award:

Factor 1 – Technical Capability
Sub-factor 1.1 – Contractor Qualifications and Experience
Sub-factor 1.2 – Personnel Qualifications and Experience
Sub-factor 1.3 – Staffing Plan
Sub-factor 1.4 – Management Plan
Factor 2 – Past Performance
Factor 3 – Price

M 2.1 Factor 1 – Technical Capability

The proposal will be evaluated to determine whether the offeror’s proposed solution satisfies the requirements specified in the solicitation and the SOW. Factor 1 has four (4) sub-factors: (1.1) Contractor Qualifications and Experience, (1.2) Personnel Qualifications and Experience, (1.3) Staffing Plan and (1.4) Management Plan, which will be rated separately. An unacceptable for a single sub-factor will render the entire proposal unacceptable and ineligible for award.

The evaluation process will consider the following:

a. Sub-factor 1.1: Contractor Qualifications and Experience. The Government is seeking to determine whether the offeror has experience that will enhance its technical capability to perform and execute the requirements of the solicitation by considering the degree of relevance of the contractor’s or subcontractor’s experience to the work listed in the SOW. The Government will assess the relevance and breadth of the offeror’s experience in efforts that are of the same size, complexity and scope as those required to complete the requirements of this solicitation. Evaluation of this factor will assess the offeror’s knowledge, experience, technical and project managerial proficiency in the following area: Corporate Logistics Support. The evaluation will also assess the degree to which the offeror’s experience is relevant to the requirements of the solicitation on the basis of similarity in size, complexity and scope, and is limited to recent experience (within the last 3 years).

b. Sub-factor 1.2: Personnel Qualifications and Experience. The Government will evaluate personnel resumes against the personnel qualifications defined in Section C, Paragraph 4.2 of this solicitation. The solicitation requirements for personnel are worded with “required”. Offerors shall meet the criteria “required” in order to be rated acceptable. Offerors are required to provide a signed letter of intent for all personnel not currently employed by the prime offeror or their subcontractor. An unacceptable rating will be given if a resume does not include a signed letter of intent (if applicable).

c. Sub-factor 1.3: Staffing Plan. The extent to which the offeror’s proposed usage of labor categories which will be employed to execute the efforts identified in the solicitation and SOW, including any categories which shall be filled
by a subcontractor. The Government will consider offeror’s strategy to maintain full staffing, incentives to hire and retain personnel, how the contractor intends to validate contract employee education and experience to meet the minimum requirements in the SOW, and how the offeror plans to quickly adapt to changing mission requirements, priorities and workloads without affecting the ongoing work.

d. Sub-factor 1.4: Management Plan. The extent to which the offeror’s management plan details the proposed lines of responsibility, and communication through which this requirement will be managed and the offeror’s proposed policies, procedures for managing, directing the effort for productivity, quality, cost control, and early identification and resolution of problems demonstrates a sound and feasible approach for management of the tasks and requirements identified in the solicitation and SOW.

M 2.2 Factor 2 – Past Performance

The Government will evaluate past performance based on Government and Non-Government contracts or subcontracts relative to previous work for the same or similar services provided for currently on-going or completed work within the last three years. The Government will only evaluate three (3) examples of past performance per offeror with at least two (2) of those being from the prime contractor proposing. Subcontractor past performance will only be considered if the subcontractor is performing more than $1M of the total contract price, excluding ODCs. The Government will focus on information that demonstrates quality of performance relative to the requirements of the SOW in Section C of this solicitation. The Government may contact sources other than those identified by the offeror. The Government will evaluate two performance pieces to determine acceptability. First, evaluators will evaluate whether the offeror’s past performance is relevant or not relevant to the effort to be acquired. Second, evaluators will evaluate to determine how well the offeror performed on the contracts and shall apply a confidence rating.

In order for an offeror to be rated “Acceptable” for past performance, the offeror must receive a Past Performance Relevancy rating of “Relevant” or higher, and must receive a Past Performance Confidence rating of “Satisfactory Confidence” or higher. Offeror’s that do not receive a Past Performance Relevancy rating of “Relevant” or higher, and a Past Performance Confidence rating of “Satisfactory Confidence” or higher will be rated “Unacceptable” and will render the entire proposal unacceptable and ineligible for award.

M 2.3 Factor 3 – Price

The Government will evaluate the price proposal for completeness, price reasonableness, consistency with the offeror’s approach, and any evidence of material imbalances in the proposal. Generally adequate price competition establishes price reasonableness. However, the Government may use current or recent pricing for the same or similar items, commercial published data, Government estimates, or other information deemed appropriate by the Government to establish price reasonableness. Evaluation of the options will not obligate the Government to exercise the option periods.

In accordance with FAR 15.404-1(b)(2), various price analysis techniques and procedures will be employed to ensure the prices being proposed for this requirement are fair and reasonable. To assist in the overall determination of price reasonableness; ONR has established fully burdened labor rates (otherwise referred to as tripwires) applicable to all labor categories under this solicitation. This fully burdened labor rate is $155 an hour. This rate is inclusive of all indirect rates and fee including any pass through costs applied by the prime offeror. Offerors proposing over this triwire (base and options) will require higher levels of scrutiny before the Source Selection Authority can make a determination to award to the offeror.

The Government Not to Exceed dollar amounts are provided for ODCs, Section G, Paragraph 19.1. These amounts provided by the Government will be the amounts the Government will utilize for evaluation. Offerors shall not propose different values for these costs.

Failure to provide detailed pricing may be grounds for proposal nonconformance. While price will not be adjectivally rated, it will be evaluated for price reasonableness. Additionally, a determination will be made if there is any significant performance risk to the Government because of unrealistically low or high prices. If Price information is included in any volume other than Price that volume will not be evaluated.
Offerors are also forewarned that if there are any discrepancies between Section B and the Attachment Number 10 cost proposal, Section B prevails. The discrepancies may impact the cost reasonableness assessment and may impact the offerors eligibility for award.

**M 3 Rating Definitions**

Evaluators for this source selection will use adjectival ratings as defined below in accordance with Department of Defense Source Selection Procedures (effective July 1, 2011).

Note: In case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, “unknown” shall be considered “acceptable.”

M 4 Price

Evaluators will not apply adjectival ratings to the price factor.

M 5 Award
The Government intends to award a single contract resulting from this solicitation to the offeror whose proposal conforms to the solicitation and offers the lowest evaluated price that meets or exceeds the acceptability standards for non-cost factors. Lowest Price is determined by the lowest evaluated price.
