Technical Support Services for the Capable Manpower Program at ONR Code 342

The Office of Naval Research (ONR), 875 N.Randolph Street, Arlington, VA 22203-1995 wishes to solicit quotations for technical support services for the Capable Manpower Future Naval Capability Program which addresses manpower, personnel training, and human systems integration science and technology issues for the Navy and Marine Corps. Due to a ramp up in FY11 CMP will require additional technical planning and analysis for the first three months of the year.

This notice will be posted through 8/26/2010 until 2:00 PM ET. Quotations and/or questions should be directed to Mr. Prakash Ravi-Chandar, ONR 703-588-2273, prakash.ravi-chandar.ctr@navy.mil or to the address listed above.
NAICS Code: 541690

Objective:
Provide technical planning, concept development, metric analysis and analysis of logical consistency to projects in the area of Capable Manpower Future Naval Capability. Specific projects that will be supported include:
- Information Architecture for Improved Decision Making (CMP-FY10-01)
- Manpower and Personnel S&T investment plan (MP)
- Human Injury and Treatment (HIT)
- 08-03 Human Systems Integration
- 08-05 Strategy for our People
- Total Ownership Cost (TOC)

Scope:
The work to be supported aims to develop Capable Manpower Enabling Capabilities for human systems integration in the areas of human factors design, manpower and personnel, and training. The overall requirement is limited to a 3-month, 120 hour effort. The effort will entail a moderate amount of travel.

POP:
01 October 2010 thru 31 December 2010

Technical Tasks/Requirements:
- Provide technical support services to CMP programs pertinent to Navy and Marine Corps operations.
  o Contribute to technical planning.
  o Contribute to operational concept development.
  o Provide analysis for product assessment and measurement.
  o Prepare technical reports
- Review, identify and asses emerging technologies, capabilities, and concept in areas of manpower, personnel, training and human systems integration.
- Participate in and support CMP design, planning and program reviews and demonstrations.

Deliverables:
- Monthly progress reports to include financial reports
- Technical Reports and Documentation
