

Sole Source Notice 12-SS-0016

Description: NOTICE OF INTENT TO AWARD A SOLE SOURCE

The Office of Naval Research (ONR) intends to issue a Cost Plus Fixed Fee modification to a single source under the authority of FAR 6.302-1(a)(2)(iii), Only One Responsible Source and No Other Supplies or Services will Satisfy Agency Requirements, on or about 28 MAY 2012 to Schafer Corporation (Schafer) under its current contract, N00014-04-D-0516-0005. The period of performance will be for an additional two month period.

The prospective contractor shall provide technical and programmatic support services to the Office of Naval Research's Director of Innovation (Code 03I).

ONR intends to award this requirement as a sole source to Schafer since the services are follow-on from a current contract award and awarding to another source would cause unacceptable delays/gaps in service during the time required to issue a new competitive contract. It is the government's intent to compete the services under SeaPort MAC Solicitation N00024-11-R-3523 and award a new contract no later than 31 JUL 2012.

The North American Industry Classification System (NAICS) code for this requirement is 541330 with the size standard of \$27 million. This notice of intent is not a request for proposals or quotes; however, all responsible sources may submit a quotation and technical capabilities, which, if received within fifteen calendar days of publication of this notice, shall be considered by ONR. All responses must be submitted to the Government point of contact at the email address shown below. A determination by the Government not to open the requirement to competition based upon the responses to this notice is solely within the discretion of the Government.
