

Amendment 002:
Special Notice 17-R-SN01
Special Program Announcement for 2017 Office of Naval Research
Swampworks Advanced Technology Development Opportunity:
Carbon Nanotube (CNT) Electrical Cabling

The purpose of this amendment is to respond to the submitted questions listed below:

1. Q: The ONR Special Notice N00014-17-R-SN01 states the Technical Proposal page limit as 20 pages, excluding the cover pages, resumes, bibliography, project schedule, and table of contents. Are the current/pending project & proposal submissions and relevant experience sections (listed in the technical proposal template) also included in the 20 page limit, or are these sections excluded from the 20 pages?

A: The current/pending project & proposal submissions and qualifications section (except resumes) are included in the 20 page limit.

2. Q: What is the preferred method of proposal submittal? The Special Notice N00014-17-R-SN01 referenced submittal via AMRDEC SAFE, while the Long Range BAA N00014-17-S-B001 instructions referenced electronic or hard copy submittal. Please confirm the preferred method of submittal, and we will submit the proposal accordingly.

A: Preferred method of proposal submittal is AMRDEC SAFE.

3. Q: July 14 is the proposal due date; is there a specific time the proposal is due on that date?

A: There is no specific time established for the 14 July proposal due date.
