

**AMENDMENT TO
Special Notice N00014-20-S-SN02 P00002
04/24/2020
Special Program Announcement for 2020 Office of Naval Research
Research Opportunity:
Affordable Mobile ASW Surveillance System (AMASS)**

This amendment revise dates for the Full Proposal Submission, Notification of Full Proposal Evaluation, and Award in Sections V and VI as follows:

V. FULL PROPOSAL SUBMISSION AND AWARD INFORMATION

Full Proposals (Technical and Cost volumes) will be subsequently encouraged from those firms whose proposed technologies have been identified through the above referenced e-mail as being of particular value to the Navy based on the white paper evaluations. However, any such encouragement does not assure a subsequent award. Full Proposals may also be submitted by any firm whose white paper was not identified as being of particular value to the Navy or any firm that did not submit a white paper. The proposals timely received will be evaluated against the BAA criteria.

Full Proposals for contracts should be submitted in accordance with the Appendix 2 of the N00014-20-S-B001 no later than **15 June 2020**. Full Proposals received after that date may be considered as time and availability of funding permit.

The period of performance for projects may be up to three years.

ONR anticipates award of a single contract for this effort.

Although ONR expects the above described program plan to be executed, ONR reserves the right to make changes or to cancel the effort entirely.

ONR expects to make funding decisions no later than **30 June 2020**. The estimated award date for the selected project is **4 January 2021**.

VI. SIGNIFICANT DATES AND TIMES

Event	Date		Time
	FROM:	TO:	
Industry Day	11 March 2020	11 March 2020	TBD
Deadline to request classified SOW appendix and Industry Day brief	12 March 2020	12 March 2020	16:00 EST
