

YOUR IDEAS

MOVE THE FLEET & FORCE FORWARD

YOU

tell us what
the problem is.

1

WE

partner with the
science and
technology
community to rapidly
bring your ideas to life.

2

YOUR

idea is turned into a
prototype with an
operational demo for you.

3

TECHSOLUTIONS

“The TechSolutions program is unique and streamlined; it is the only rapid development program that, in my opinion, truly works for the warfighter and is about the warfighter.”

–Former Navy SEAL, request submitter

Just a few examples of warfighter-suggested technologies we have brought to the Fleet and Force:

- **Virtual Bridge and Nautical Trainer:** Easy to use mixed-reality system to practice critical decision-making and navigation at sea.
- **Small Unit Mission Planning Application:** Generate and analyze ground combat courses of action with a handheld tactical planning tool.
- **Flight Deck Crew Training:** Provide multi-team virtual training for Landing Signal Officers and Primary Flight Control.
- **Surf Observation Technology:** Provide precise, real-time surf zone data delivered to a handheld tablet for amphibious landings.
- **Topside Drone:** A quadcopter that autonomously inspects the topside of naval vessels for corrosion.
- **Warfighter Daily Life Improvements:** TechSolutions has sponsored everything from improved lighting in bunk areas and watch floors, to more comfortable and effective flight deck clothing and watch-standing boots.
